RELATED EXPERIENCE

Projects

Senior Thesis/International Climate Change Policy: An Analysis of U.S, Japan, and Germany

Appalachian State University, Boone NC, Fall 2006

- Researched government and international documents to evaluate the effectiveness of a country's policies to deter climate change.

Land Use Regulation, Appalachian State University, Boone NC, Spring 2006

- Analyzed and studied Supreme Court cases involving land use regulations and planning.
- Developed case briefings by examining the interpretations of each judge and the final ruling.

Ecology, Appalachian State University, Boone NC, Spring 2005

- Received hands on experience through river collection and greenhouse exploration.
- Conducted organism population studies by incorporating lab experiments with statistical analysis.

Involvement

Energy Revolution, Appalachian State University, Boone NC, Fall 2006-present

- Became an active member of a club who successfully brought sustainable building policies to ASU.
- Functioned as the public relations person by taking student polls and creating awareness on campus about the club's efforts.

Solar Club, Appalachian State University, Boone NC, Fall 2005-present

- Attended seminars conducted by the ASU Solar Energy Society such as: Passive Solar Homes, Wind Energy in Western North Carolina, and Alternative Fuels.
- Used information gained through seminars to enhance projects in Environmental Studies such as, The Future of Hybrid Vehicles.
